

# California OES Weather Threat Briefing

Friday, February 4, 2022  
9:00 AM PST

**Day 1 (Friday):** Gusty offshore winds will continue across the southern California mountains and foothills through at least Friday morning.

National Weather Service

*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**02/04/22 - 02/10/22**

## **Friday-Saturday**

- Strong and gusty offshore northeast to easterly winds will persist across a large portion of southern California through Saturday morning.
  - Localized wind gusts of 40-60 mph are expected
  - The combination of ongoing very dry conditions and winds may locally increase fire weather concerns
  - High winds expected in the Los Angeles County Mountains will persist through Saturday afternoon

## **Sunday - Thursday**

- After a brief break from the strongest winds on Saturday, several additional rounds of gusty Santa Ana (offshore) winds are forecast to return to southern California later Sunday through at least the middle of next week
  - Some details are still uncertain, though multiple periods of local wind gusts 35-55 mph appears most likely at this time
  - Fire weather concerns may become elevated over southern California due to the gusty winds and ongoing very dry conditions
- No precipitation is expected across the state through at least the middle of next week, and likely beyond
